# Volcanoes Of The Antarctic Plate And Southern Oceans (Antarctic Research Series)

## Synopsis

Published by the American Geophysical Union as part of the Antarctic Research Series, Volume 48. This volume attempts to present both a comprehensive overview of the south polar and subpolar volcanic provinces, and summary data on the status of knowledge of each volcano or volcano group. This broad region, covering roughly 6% of the Earth's surface, is infrequently visited and yet truly international. Its geoscience literature is dispersed in many journals, monographs, symposium volumes, and expedition reports, in many nations, and we hope that this summary will make it more widely available. The preparation of the volume has been a project of the International Association of Volcanology and Chemistry of the Earth's Interior (IAVCEI) through its Working Group on Antarctic Volcanology. It represents a substantial update and expansion of IAVCEI's 1960 Catalogue of Active Volcanoes for Antarctica (edited by W.H. Berninghausen and M. Neumann van Padang). The organization and format of the volume, conventions followed, and other items of information are presented below.

## Book Information

Series: Antarctic Research Series (Book 48)

Hardcover: 487 pages

Publisher: American Geophysical Union; 1 edition (January 8, 1991)

Language: English

ISBN-10: 0875901727

ISBN-13: 978-0875901725

Product Dimensions: 1 x 8.5 x 11 inches

Shipping Weight: 3.4 pounds
