# Eastern North Carolina Farming (Images Of America)

## Synopsis

Settled as a maritime and agricultural colony, North Carolina's history has always been intertwined with agriculture and farming. After the Civil War, North Carolina became the nation's top grower of tobacco, and one of the country's largest tobacco companies—the American Tobacco Company—flourished from the huge quantities of Eastern North Carolina's grown tobacco that was purchased. With the growing success of cotton farming and other crops and livestock—including corn, peanuts, and hogs—the region was particularly rich in subsistence farming. Over the course of the 20th century, farming and agriculture went through tremendous change. The familiar landscape of cotton and tobacco began to shift and include more varied crops, such as soybeans and sweet potatoes. At the same time, hand tools were exchanged for tractors and combines. Eastern North Carolina Farming showcases the rich history of this agriculturally dynamic region while telling the individual stories of farmers who grew for families, markets, and distribution.

## Customer Reviews

Gift for my mom who grew up in Eastern North Carolina where my great grandparents were tobacco farmers. Brought back a lot of memories for her and my grandmother.
