Customer Reviews

Have to say I really enjoyed this read. Well put together and used a news/reporting format to tell the story that was perfectly done. If you want to know what happens after the Battletech novels stopped this is a must read. One thing I do want to mention about it is that because it is written as a collection of news reports there is some mystery left into some things that are happening, which I liked but some people may find frustrating as everything is not laid out.

This one I like; I have yet to purchase other of the Jihad series, yet, given the format and way the stories are presented, I do like. It adds material which I can integrate into my own campaign.

Very detailed. But leaves opening for the game master to work with...if you're not a 'WOBE'. If you

are, it's also a great book for use in game.
