# Introductory Statistics (10th Edition)

Synopsis

Weissâ ™s Introductory Statistics, Tenth Edition, is the ideal textbook for introductory statistics classes that emphasize statistical reasoning and critical thinking. Comprehensive in its coverage, Weissâ ™s meticulous style offers careful, detailed explanations to ease the learning process. With more than 1,000 data sets and over 3,000 exercises, this text takes a data-driven approach that encourages students to apply their knowledge and develop statistical understanding. Â This text contains parallel presentation of critical-value and p-value approaches to hypothesis testing. This unique design allows the flexibility to concentrate on one approach or the opportunity for greater depth in comparing the two. Â   Note:Â You are purchasing a standalone product; MyStatLab does not come packaged with this content. MyStatLab is not a self-paced technology and should only be purchased when required by an instructor. Customer Reviews

books good but know if you get it used the codes for the class are not included. i didn't know what

that meant until I started the class. I still like having the hard cover book so I am happy I rented it. However, if you get the code for the class, through Pearsons, the ebook is included.FYI

Awesome price and came in great condition! All pages were intact, no rips I've seen so far! And it got here super fast!

This book is worthless. Not only does it not explain any of the concepts fully or comprehensively, but it is also completely inconsistent in how it expects answers to be written. I also found several incorrect answers in the back of the book. By far the worst textbook I have ever had to use. Whoever else is subject to this nonsense I wish you better luck than I had.

Everything is explained clearly and logically, the book helped A LOT. I give 4 out of 5 stars because the physical layout of the book makes it seem very cramped and can be difficult to follow.

Needed this book for a class. Learned everything out of the textbook, it's clear and great to learn from.
