The Boyfriend Test: How To Evaluate HIS Potential BEFORE You Lose YOUR Heart

Synopsis

LISTEN UP, LADIES!!! Tired of fretting over the latest in a long line of lotharios who decided that he wasn't ready for a serious relationship -- about 24 hours after you introduced him to your parents? Sick of not answering your phone to avoid that dream guy you met at a party who turned into a dud after three dates? Wonder when you'll stop calling your best friend at 2 a.m. sobbing over that Mr. Wrong you thought was so right? Well, here's the perfect cure for your many broken hearts -- an ounce of prevention in *The Boyfriend Test*. Instead of hoping that your man or your relationship will live up to your dreams, Wendy L. Walsh, a dating doyenne who has kissed her fair share of frogs, urges you to take a long hard look at yourself, your boyfriend candidates, and couplehood--and put you, him, and "we" to the test. *The Boyfriend Test* is divided into three thought-provoking sections: * The Girlfriend Test--what's motivating you to get involved anyway? * The Boyfriend Test--evaluating everything from his first-date behavior (is he too good to be true?) to his consistency over five dates (ah, the truth emerges). * The Couple's Report Card--full of quick tips on maintaining a healthy relationship. Funny and wise, *The Boyfriend Test* is a must-read for any woman on the brink of starting a new romance, or on the brink of insanity from her current one!

Book Information

Customer Reviews

I am a guy; I have always been fascinated by what actually is going on in woman's mind. It seems that a different sexual orientation is the greatest forces that can diversify thinking between two members of the same species. This book can easily attest to that. After reading the *Boyfriend Test* I was rather sad to know that this author thinks of her experience as valuable and educational to her

audience. Actually, they are educational in that they might tell women on how not to behave. The author is a good example of a person who knows little about the dynamics of intersexual interaction. It is not a surprise to see no PhD. following her name, which led me to speculate where whether she gathered most of her "valuable experience" at college frat parties. However, a beautiful anchor woman is rather a sought after mate by most men and I'm not surprised after all that Walsh developed scars from jumping between relationships. Anyway, what most irritated me about this book was a large number of generalities she states with outmost confidence of being correct. Is it really bad when a guy arrives early for a date? If a guy did not have a serious relationship until past 25 does that mean that something is terminally wrong with him? My happily married psychology professor went out on his first date when he was 24! Overall, Walsh's approach to dating was extremely superficial. Her advice would be valuable to those women who seem to have the same problems as her, attracting or looking for wrong men. I have many guy friends and I can tell a girl right away whether one of my friends will be a devoted boyfriend or someone who will break her heart. How do I know? I know because I knew my friends for a long time I and I have a good insight into their personalities.
