My favorite part of this book was the emphasis on touching. I think in our busy and hectic lives we forget how meaningful and important that factor is in a relationship. Simple and loving touching can do wonders to boost self-esteem and endorphins. The book also covers positions (beginner and advanced). Great book!

amazing book at describing the philosophy behind the practice and tips that extend past just the sexual part of Kama Sutra. Only complaint is the positions didn't come with pictures and the way

they describe the positions are difficult to comprehend

I'd recommend this book to anyone. It definitely won't disappoint. Me and hubby actually read it out loud to each other and then chose the different positions we wanted to try. Some were uncomfortable and others really didn't do the trick. But a lot were great. Point is to experiment spend some time in the bedroom (or wherever you like sexy time) together and get to know you and your lovers body better.

Sex is crucial in both husband's and wife's lives. Thing is, once you think you are better off without having sex, that's where the problems in family begins. We were constantly arguing about nothing and our kids couldn't understand us at all. I saw this book by an accident and instantly bought it. I read it and remembered how much I used to enjoy sex with my wife. I surprised her with a massage and tried one of many techniques on her and she just loved it! We're getting sexually active again

Truly the best guide around! I was completely new to the whole kama sutra, but reading this has improved my sex life a lot. It was a very intriguing and thought-provoking read and I am very much impressed by the lesson taught by this book. This book will teach you everything of all sex related things that you want to know. If you are passing by this book, I recommend buying it!

Reading this book is really a hot experience! I am happy I found and got a copy of this book, and so is my partner! I bought this book at the recommendation of my closest buddy at work and he said it can make my normal life extraordinary. This is a terrific book because the author has taken a more modest approach. They are written like any other instruction manual, and if you can follow the instructions, it will work. This book met all of my expectations. Too many of us have no idea what our bodies can do. I would proudly suggest you read it and see for yourself! Get ready for the improvements both of you will experience!

This book is really great - it is classy. The book covers setting the mood, trust, romance, and so much more. This is a very detailed book with easy to follow instructions and illustrated guides. Gives a background to each position and a difficulty level. Other books were hard to understand this one is great. It takes you from setting the mood through foreplay and after. I love it! great book!

This is a well-written guide that delves into the essentials of the Kama Sutra and how to apply it in

your own life to benefit not only your sex life, but your life in general; it leaves out all of the esoteric elements and focuses on modern-day applications. There are also a huge quantity of sex positions to try, many of which I would never have even thought to attempt previously (some may be a bit too advanced for me and my tastes). The only thing I think could improve the book is if there were simple illustrations to go along with the descriptions of the positions, even though the descriptions are more than adequate to get the point across.
