Customer Reviews

Extremely well written fart jokes. Fantasy and reality mixing together beautifully and some of the best one liners I've ever read. I've also never wanted to learn how to play D&D more than when I was reading these books. Can't wait for the next one and will start on the short stories soon.

I haven't finished this series yet, I'm only halfway through book 2, but it is a riot. Any D&D fan will enjoy this, and it will bring back a lot of nostalgia from great games played with friends. I'm not normally one for "crude" humor. Fart jokes, and the like, don't tend to do it for me. I could personally do without some of the things that happens to the character Cooper due to his terribly low Charisma score, I honestly don't find the sheer amount of grossness entertaining, but I realize there are people that do. (I don't dislike the character of Cooper, his personality or anything like that). It's a testament to how great this book is that the really graphic crudeness didn't turn me off. I think the

idea for this story is a fantastic one. I especially like some small features, such as their character sheets being with them, and updating as things happen. That is a clever idea and a neat feature of the story. This book is well worth the read for any D&D fan, and I would urge anyone who also dislikes poop-jokes to try and put up with them for the sake of this book, because it really is worth it.

Probably the best value around for entertainment to price you'll find in your life. Be warned, the series is for those with a sick sense of humor. The best analogy I can make would be if Kevin Smith adapted the old Dungeons and Dragons cartoon into a movie series, with foul mouthed smart asses filling all the roles. You WILL laugh out loud and scare your neighbors with brays of laughter with tears in your eyes. Five very well deserved stars!

Sure there are dick and fart jokes. But this series is really funny and clever. If you ever played fantasy roll playing games, you will get the humor, you will understand the frustration of not really knowing what is going on as a new player, and the insanity of making bad decisions and pissing off your DM. I know I will never see charisma scores the same way again. If you haven't played, you might not get all the jokes, but it is still funny. Robert Bevan is a gifted author. Read his stuff. It doesn't disappoint!

A wonderful series for geeks, I couldn't set the book down. My only complaint is that they books are very short. These books are also available on Audible which I use every day but I wouldn't waste the credits on something that's so short. The characters are fun and the story is a great start, it seems the story line could have been embellished on a little making it last longer.

Swords, Sorcery, Dick jokes. If you find that tag line funny, then you'll like these novels. If you don't, then stay away, cause that's pretty much what they are. Not all the books are wall to wall laughs, but the stories are fun, and there are plenty of wipe-the-tears-from-your-eyes laugh out loud moments that they're worth the read. Buy these.

This is some really good stuff. I am loving it. Only complaint is I bought this and the short storied at the same time. The shot stories I got have audible. This collection does not have audible, however it appears that I can now buy the books separately with audible at about \$6 per book. Can I not get a bulk deal for the collection of the audible since I have the books. Most books allow you to add audible for \$1.99 to any book you already have. Jonathan Sleep can narrate these guys like the

need to be down. \$1.99 is not bad, be wonderful for the whole collection! ;-)But seriously, great fun, and continuity. The side stories are great, I wanna say more but I am sleepy. I need this in audible so I plug it in and help me sleep. The kind of funny, feelgood I can go to sleep listening to. Or fire up and listen to with friends and have beer, wings, and pizza!

I might have a four year degree in English, and several hours in literature and creative writing, and it goes completely against all that teaching that I should enjoy Bevan's crude potty humor as much as I do. I could not stop reading these books for the life of me. I'd vote book 2 or 3 as my favorite, but it's a tough line to draw as they're all unique in their buildup and humor. Each one had me consistently pausing to catch my breath from laughing so hard. Having knowledge of the D&D game system helps bring some of the action to life. Knowing your way around southern Mississippi adds a bit more. But since everybody poops, then everyone can get Cooper. As a parent and teacher, I wouldn't exactly recommend these books for anyone under the age of 16, as they're basically the literary equivalent of The Hangover in their maturity level. But for anyone over that who wants a read that'll keep you giggling in the corner amidst awkward and curious stares of those nearby, read this \$***. Bravo Bevan, bravo.
