Boy's Life

Synopsis

In me are the memories of a boy's life, spent in that realm of enchantments. These are the things I want to tell you.... Robert McCammon delivers "a tour de force of storytelling" (BookPage) in his award-winning masterpiece, a novel of Southern boyhood, growing up in the 1960s, that reaches far beyond that evocative landscape to touch listeners universally. *Boy's Life* is a richly imagined, spellbinding portrait of the magical worldview of the young - and of innocence lost. Zephyr, Alabama, is an idyllic hometown for 11-year-old Cory Mackenson - a place where monsters swim the river deep and friends are forever. Then, one cold spring morning, Cory and his father witness a car plunge into a lake - and a desperate rescue attempt brings his father face-to-face with a terrible, haunting vision of death. As Cory struggles to understand his father's pain, his eyes are slowly opened to the forces of good and evil that surround him. From an ancient mystic who can hear the dead and bewitch the living, to a violent clan of moonshiners, Cory must confront the secrets that hide in the shadows of his hometown - for his father's sanity and his own life hang in the balance....

Book Information

Audible Audio Edition

Listening Length: 20 hours and 10 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Simon & Schuster Audio

Audible.com Release Date: October 7, 2014

Best Sellers Rank: #79 in Books > Science Fiction & Fantasy > Fantasy > Anthologies #498 in Books > Mystery, Thriller & Suspense > Thrillers & Suspense > Supernatural #693 in Books > Audible Audiobooks > Fantasy

Customer Reviews

Sometimes I get to thinking that my mental list of the "Top 5 Books I've Ever Read" is going to remain cast in stone until the day I draw my terminal breath. Then, out of the blue, an accidental discovery like "*A Boy's Life*" will come along and prove that, while I may consider myself well-read, there's still way too much opportunity for bona fide treasures to remain hidden. I try not to use too many superlatives when writing a review - they tend to distract the reader and perhaps even cause

them to question your objectivity. But this time I just can't bring myself to care, such is my admiration of the book I read just a few short weeks ago. Put simply, this work is a masterpiece, and it's only when you encounter something as rich as this that you realise how often that word is applied to inferior goods. One line plot summary - "'A Boy's Life' details the adventures of a twelve year old boy growing up in a small town, being essentially a series of vignettes backed by a tale of an unsolved murder." None of which, of course, would tempt you to read the thing were I not to say this: McCammon has always been a competent writer, but neither before nor since has he approached the heights he attains here. God knows other writers have come close to capturing the simple magic of boyhood (King's "The Body" makes a fine case study), but McCammon leaves them all in his wake. There really is magic in this book, I swear it - the pleasures and pitfalls of early friendships, the thrill of summer break, the bicycle as a near-mythical icon, the joys of childish things and the call of the future - it's like putting on a pair of magic lenses and seeing things as we saw them before the cares of the world came to spirit us away.
